

PRODUCT SHEET - HOT ROLLED COILS

Alstro represents and sources the coils from state-of-the-art hot rolling mills with rated capacities. The mills are capable of producing a wide range of high-strength hot rolled products in sizes ranging from 0.8mm to 30mm for various applications. The mills are equipped with an advanced automation system for producing products as per the required dimensions and sizes.

FEATURES

- Widest hot strip mill having width up to 3,000mm
- Product conforming to international standards
- Dimensional tolerances customised to specific requirements
- Available in coil / slit / sheet form

GRADES

- Drawing quality steel: D / DD / EDD
- Cold rolling grades: IF (Interstitial Free) and High Strength IF Steels
- Medium carbon / high carbon steels
- High strength steels: JIS G 3113 SAPH310/370/400/440, JIS G 3134 SPFH-540/590, EN 10149-2 S550MC/S650MC, DP590
- Line pipe – API X42 to X-80 grades (Sour and Non Sour Applications)
- Boilers and pressure vessels grades
- Ship building grades
- Corrosion resistant steel

SUPPLY CONDITIONS

- Mill edge / trimmed
- HR black / Hot Rolled and Pickled Oiled (HRPO)

APPLICATIONS

- General engineering
- Boilers and pressure vessels
- Shipbuilding
- Structural construction

BENEFITS

- Excellent cold forming and deep drawing properties
- Excellent weldability
- Consistency in quality

DIMENSIONS

Thickness: 0.8-30mm

Width: 180-3,000mm
